

**Job Role:** Internship**About ICHOM:**

ICHOM is committed to transforming healthcare to a value-based system through universal measurement and reporting of patient outcomes. ICHOM was co-founded in November 2012 by Professor Michael Porter of Harvard Business School. ICHOM builds global flagship programs – developing, maintaining and implementing Standard Sets, collecting and benchmarking patient data. Standard Sets are created by groups of global experts including patients and doctors. Advanced data analytics allow stakeholders to compare patient outcomes across the world.

**Responsibilities:**

Lead the development of the project finalisation document and publication of the GLOBE Program results in an international journal. The program developed and tested effective benchmarking approaches to meaningfully compare health care providers based on ICHOM's Cataracts standard set measures. This will involve working with the healthcare providers to capture information ready for publication submission, liaising with these partners and dealing with their queries on a daily basis.

Support the development of ICHOM's annual conference, work with the steering committee to define the agenda, secure leading speakers in Value Based Healthcare. Work with the marketing team to produce content to advertise the agenda. Regularly report conference progress to the Conference Director and the rest of the team.

Work with colleagues across the organisation to support a range of ICHOM projects to ensure delivery of work such as the creation of standard sets, training programs, data collection and grant projects.

**Requirements:**

You will be studying or have recently completed studies in the fields of marketing, management, public policy or healthcare, with experience of writing content for publication.

You will be able to manage multiple projects at any one time, prioritising and re-prioritising continuously. An energetic, people-focused problem-solver who can work as a self-directed individual, whilst equally happy as a member of a team.

Very strong written and verbal communication skills – being clear and concise in your communications – whether it's written or verbal

The position can be based in London, Boston, or as a remote worker.
