For a complete overview of this Set, including definitions for each measure, time points for collection, and associated risk factors, visit <https://connect.ichom.org/patient-centered-outcome-measures/cataracts/>

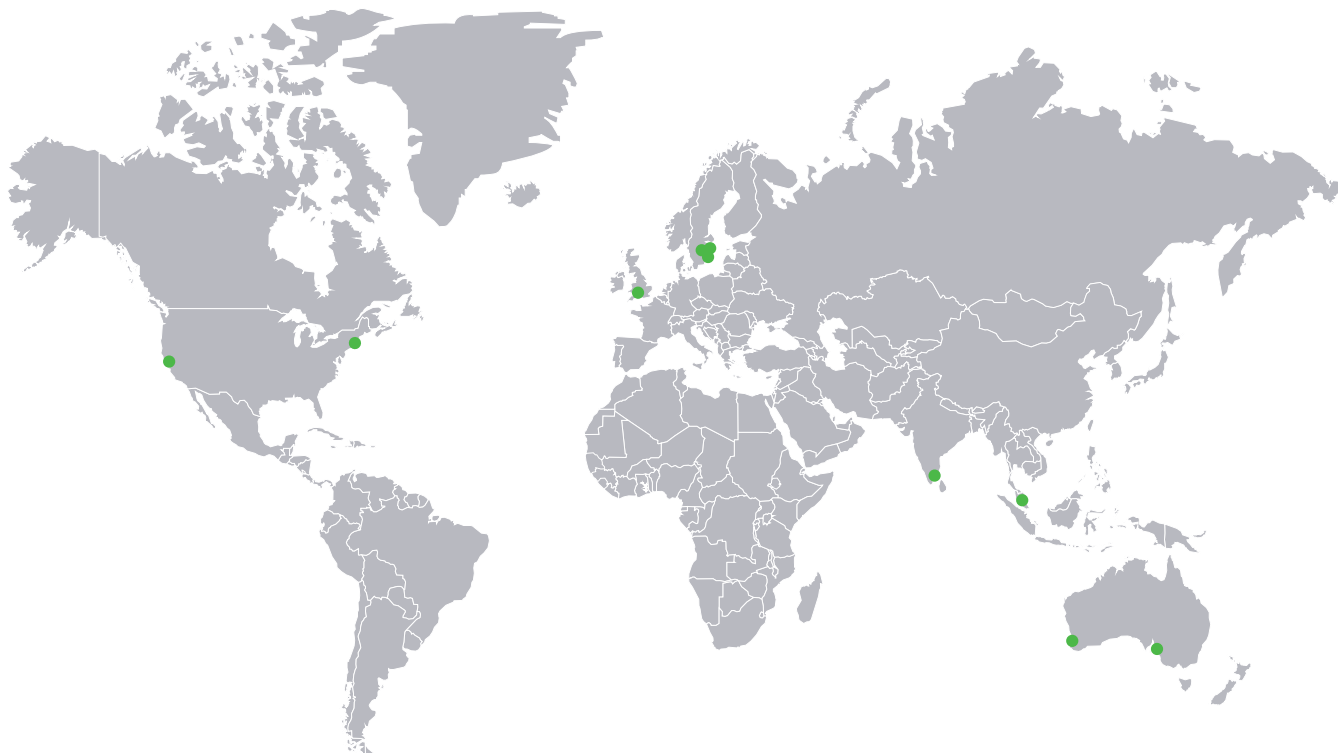

# Approach

The ICHOM Set is the result of hard work by a group of leading physicians, measurement experts and patients together with the non-profit organization ICHOM. It represents the outcomes that matter most to patients with cataracts. We urge all providers around the world to start measuring these outcomes to better understand how to improve the lives of the patients they serve.

## The Process

## The Working Group

### Australia

Nigel Morlet | Curtin Health Innovation Research Institute  
Konrad Pesudovs | Flinders University

### India

Haripriya Aravind | Aravind Eye Care System

### Malaysia

Goh Pik Pin | National Cataract Registry

### Sweden

Mats Lundström | EUREQUO  
Anders Boman | St Erik Eye Hospital  
Ingrid Kossler | European Cancer Patient Coalition

### United Kingdom

John Sparrow | National Ophthalmology Database

### United States

Suzann Pershing | American Academy of Ophthalmology  
Imran Mahmud | ICHOM
