For a complete overview of this Set, including definitions for each measure, time points for collection, and associated risk factors, visit [ichom.org/medical-conditions/Low-Back-Pain](http://ichom.org/medical-conditions/Low-Back-Pain)

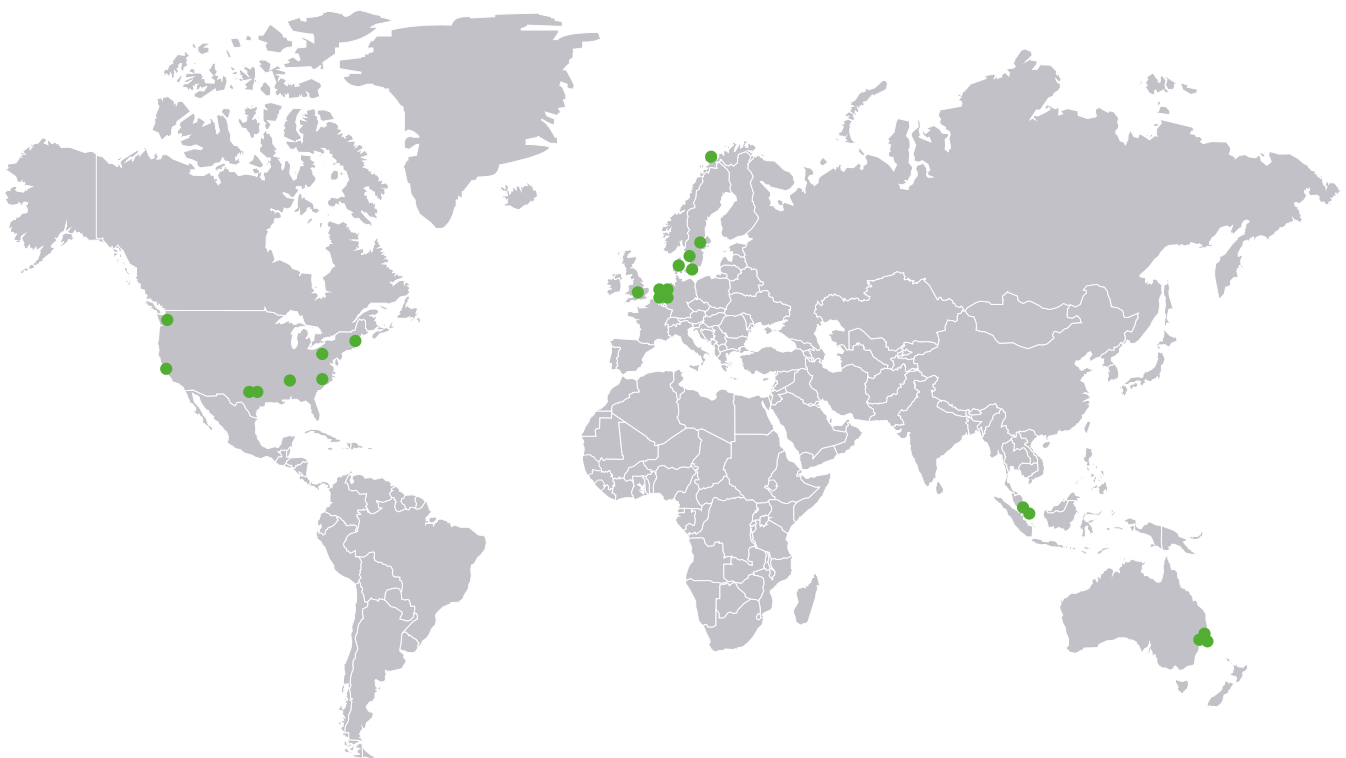

# Approach

The ICHOM Set is the result of hard work by a group of leading physicians, measurement experts and patients together with the non-profit organization ICHOM. It represents the outcomes that matter most to patients with low back pain. We urge all providers around the world to start measuring these outcomes to better understand how to improve the lives of the patients they serve.

## The Process

## The Working Group

### Australia

Beth Morrison | Newro Foundation  
Michelle Davies\* | St. Paul's School  
Richard Kahler | BrizBrain and Spine

### Denmark

Martin Gehrchen | University Hospital of Copenhagen, Rigshospitalet

### Netherlands

Miranda van Hooff | Sint Maartenskliniek  
Paul Willems | Maastricht University Medical Center  
Wilco Jacobs | Leiden University Medical Center

Wilco Peul | Leiden University Medical Center

### Norway

Tore Solberg | University Hospital of North Norway

### Singapore

William Yeo | Singapore General Hospital  
John Chen | Singapore General Hospital

### Sweden

Peter Fritzell | Ryhov Hospital, SweSpine  
Olle Hägg | Spine Center Göteborg, SweSpine

Björn Strömqvist | Lund University, SweSpine

### United Kingdom

Jeremy Fairbank | University of Oxford

### United States

Isador Lieberman | Texas Back Institute  
Matthew Smuck | Stanford University Medical Center  
Thomas Cha | Massachusetts General Hospital  
Ajay Wasan | University of Pittsburgh Medical Center  
Donna Ohnmeiss | Texas Back Institute

Kevin Foley | University of Tennessee Health Science Center

Neal Shonnard | Rainier Orthopedic Institute, Spine SCOAP Collaborative  
Safdar Khan | Ohio State University  
Carter Clement | University of North Carolina at Chapel Hill
