ICHOM

Lung Cancer

Treatment approach covered

■ Surgery ■ Radio Therapy ■ Chemotherapy ■ Targeted Therapy ■ Immunotherapy ● Other

- Details
1. Includes major surgical complications, major radiation complications, and major systemic therapy complications. Recorded via the Common Terminology Criteria for Adverse Events (CTCAE), version 4.0
  2. Recorded via the Eastern Cooperative Oncology Group (ECOG) score
  3. Recommended to track via the European Organization for Research and Treatment of Cancer Quality of Life Lung Cancer-Specific Questionnaire (EORTC QLQ-LC13)
  4. Recommended to track via the European Organization for Research and Treatment of Cancer Quality of Life Questionnaire (EORTC QLQ-C30)
  5. Includes physical, emotional, cognitive, and social function and well-being
  6. Includes treatment-related mortality and cause of death

For a complete overview of this Set, including definitions for each measure, time points for collection, and associated risk factors, visit <https://connect.ichom.org/patient-centered-outcome-measures/lung-cancer/>

ICHOM

Non-Metastatic Breast Cancer

Treatment approach covered

■ (Reconstructive) Surgery ■ Radio Therapy ■ Chemotherapy ■ Hormonal Therapy ■ Targeted Therapy

- Details
1. Complications will be recorded based on the type of therapy needed or action required to correct the complication as described in the Clavien-Dindo Classification and CTCAE v4.0
  2. Includes depression and anxiety.
  - 3, 4. Recommended to track via the EORTC Quality of Life Questionnaire Core-Questionnaire (EORTC QLQ-C30).
  5. Includes body image and satisfaction with breast(s). Recommended to track via the EORTC Quality of Life Questionnaire Breast Cancer Specific Questionnaire (EORTC QLQ-BR45) and the BREAST-Q 2.0 - Satisfaction with Breasts.
  6. Includes arm and breast symptoms. Recommended to track via the EORTC Quality of Life Questionnaire - Breast Cancer Specific Questionnaire (EORTC QLQ-BR45).
  - 7, 8, 9. Recommended to track via the EORTC Quality of Life Questionnaire Breast Cancer Specific Questionnaire (EORTC QLQ-BR45).
  10. Includes sexual functioning and vaginal symptoms. Recommended to track via the EORTC Quality of Life Questionnaire Breast Cancer Specific Questionnaire (EORTC QLQ-BR45).
  11. Includes physical, emotional, cognitive and social functioning, ability to work and overall well-being. Recommended to track via the EORTC Quality of Life Questionnaire - Core Questionnaire (EORTC QLQ-C30).
  12. Includes overall vital status and death attributable to breast cancer.

For a complete overview of this Set, including definitions for each measure, time points for collection, and associated risk factors, visit <https://connect.ichom.org/patient-centered-outcome-measures/breast-cancer/>

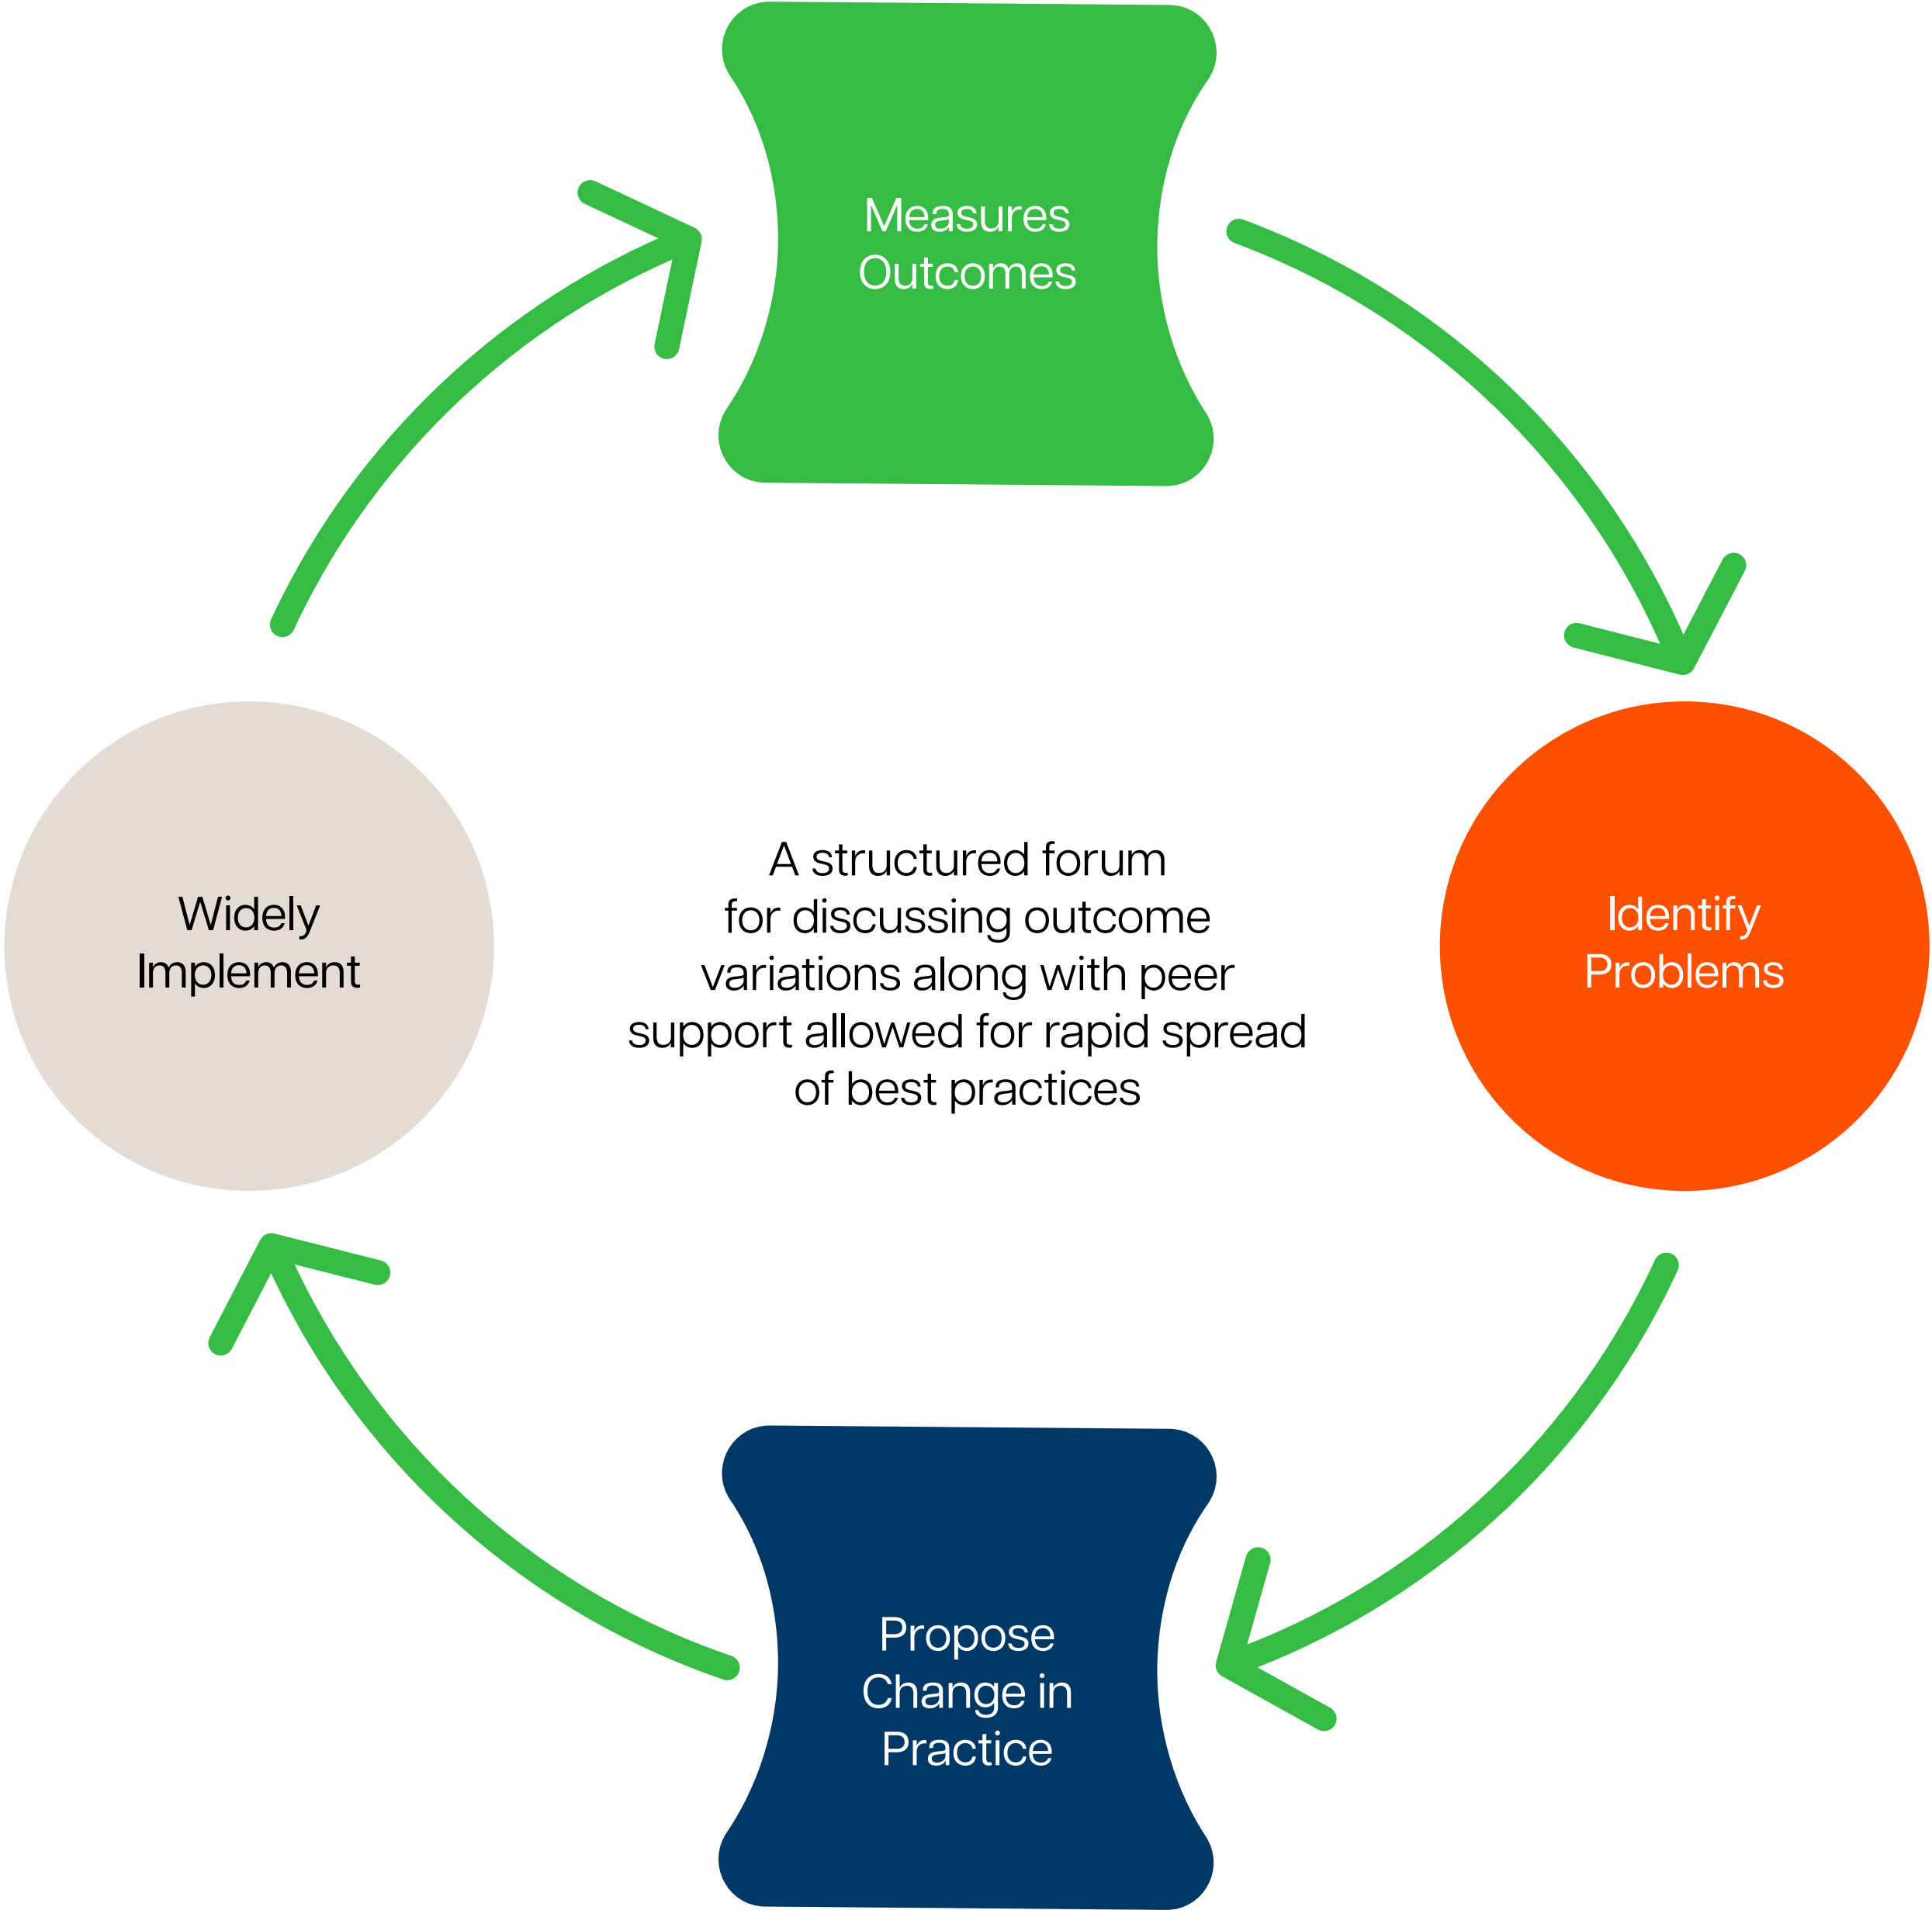

# A Complete Cycle of Measuring Outcomes that Matter Most Led to Better Care for Patients

One-week urinary continence rates quickly rose from 50% to 70%, and one year from 94.7% to 96.9%

Peer based learning from the best physicians

Outcome data analyzed and discussed every 6 months to detect difference

A surgical technique demonstrated better urinary continence outcomes than the current method
