

International Consortium for Health Outcomes Measurement

ICHOM is a 501(c)(3) Organization

ICHOM Partnership Program

The ICHOM Partner Program is designed to support and recognize organizations that are helping drive the global shift toward Value-Based Healthcare (VBHC) - a model of care that focuses on outcomes that matter most to patients. For this reason, our partners are carefully selected organizations and the collaborations that unfold are some of our proudest achievements.

There are several types of partnership - such as Leadership, Transformation, Knowledge, and Partners - each reflecting different roles in advancing outcomes measurement globally. Through partnership, organizations work alongside ICHOM to shape meaningful projects, influence dialogue, and contribute to measurable improvements in care worldwide.

Why the Future of Healthcare Demands Change:

Health spending is projected to **rise from 9.2% of GDP in 2022 to 11.8% by 2040**¹...

63% of worldwide deaths in 2008 were caused by major preventable diseases (CVD, cancer, chronic respiratory, diabetes).² **Estimated cost of chronic disease is expected to reach \$47 trillion worldwide** by 2030.³

Despite these common pressures, **healthcare systems don't learn what works**, resulting in huge variation in outcomes and practice

True extent of inequity in healthcare for specific conditions **is impossible to ascertain**

Where an ICHOM Partnership Creates Impact:

Visibility & Influence

- Partners are positioned as leaders in value-based healthcare within ICHOM's global network of 30,000+ professionals across 60+ countries.
- Use of ICHOM's globally recognised brand signals clinical rigour, outcomes leadership, and buyer confidence.
- Year-round visibility through co-marketing opportunities, including joint communications and co-authored insights, reaching healthcare leaders worldwide.

Adoption & Impact

- Participation in the annual ICHOM Conference, alongside access to speaking, attendance, and visibility opportunities across ICHOM's webinar programme and leadership events.
- Direct guidance from ICHOM outcomes and PROM experts, supporting effective implementation and real-world adoption of ICHOM Sets.
- Opportunities to connect directly with clinicians, health systems, policymakers, and industry peers to share insights, practical experience, and best practices.

Co-Creation & Growth

- Preferred partner positioning supports qualified referrals, joint RFPs, and co-funded projects aligned with ICHOM Standards.
- Where appropriate, ICHOM may refer organisations seeking outcomes implementation or value-based healthcare support to certified partners, creating tangible business development opportunities.

Partners Driving Change include:

- Healthcare providers & systems
- Consultancies and implementation specialists
- Life sciences and health IT companies
- Academic and research institutions
- Organisations advancing patient engagement and outcomes data

Partners Driving Change Include:

ICHOM in numbers:

575+

implementing sites in over 60 countries

48

Sets of Patient-Centered Outcome Measures

30,000+

members in the global value-based healthcare community

5,000+

citations in peer-reviewed publications

14

ICHOM-accredited hospitals

Working with ICHOM enables us to champion value-based healthcare in our region, embedding outcomes measurement into everyday practice and fostering a culture of transparency, teamwork, and continuous improvement.
