ICHOM Set

APPROACH

The ICHOM Set is the result of hard work by a group of leading physicians, measurement experts and patients together with the non-profit organization ICHOM. It represents the outcomes that matter most to patients with cataracts. We urge all providers around the world to start measuring these outcomes to better understand how to improve the lives of the patients they serve.

The Process

The Working Group

Australia

Nigel Morlet | Curtin Health Innovation Research Institute
Konrad Pesudovs | Flinders University

India

Hari Priya Aravind | Aravind Eye Care System

Malaysia

Goh Pik Pin | National Cataract Registry
